

Flea & Tick Spray

About Flea & Tick Spray:

Flea & Tick Spray is a natural repellent with a pleasant and refreshing smell!

Flea & Tick Spray uses clean, non-sticky active ingredients.

Flea & Tick Spray:

- A natural flea and tick repellent formulated by nature.
- The combination of Brazilian oils from certified forests act as a natural shield from unwanted pests.
- The oils have been used for centuries by the indigenous people of the Amazon forest to keep pests from detecting a desirable scent from their skin thus creating avoidance.
- Does not contain any drugs or synthetic chemicals.
- No known toxic effects from licking the skin.
- Safe for use on beddings and could be applied to collars that are able to soak up the oils.

Active Ingredients:

Lemongrass Oil 4%
Cinnamon Oil 1%
Sesame Oil 1%
Castor Oil 0.5%

Inert Ingredients:

Purified Water 93.3%
Vitamin E 0.2%

Directions for Use:

Shake **VIGOROUSLY** before each use.
Please read all directions carefully before application.

Spray generously on fur, including legs and stomach and then work into the coat if necessary. Depending on the thickness, type, and length of fur, the spray may require additional rubbing to get the product through the entire coat. Avoid contact with mucus membranes by covering the animal's nose, mouth and eyes when applying near the animal's head. Use a cloth or our handy pre-soaked Flea + Tick wipes to apply the product on the animal's face. Reapply every 2 – 3 days or as needed before the animal goes outside. Reapply whenever the animal is thoroughly wet. Safe for daily use, if desired.

Avoid soaking the animal with the spray. Safe for use on puppies and kittens. Keep cap on bottle when not in use. This spray can also be used on the pet's bedding and grooming tools. This formula is designed to be non-staining, but we recommend testing it on fabric or other surfaces before use.
