

Hair Regrowth Solutions

The goal of hair loss treatments is to protect the DNA, mature the hair follicles, lengthen the anagen (growth) phase in the hairs, and prevent free radicals from breaking down the cells in the follicle.

Progesterone Leave-In Treatment 8oz

This treatment contains organic chamomile extract, organic sage extract, organic nettle extract, and organic lavender extract to **strengthen, protect, and repair distressed hair** adding shine and manageability. It also contains USP Progesterone. **Progesterone is an alpha-reduc-tase competitor which decreases production of DHT, the stronger Testosterone associated with Hair Loss.** This dual mechanism of progesterone makes it a very effective treatment.

Progesterone is traditionally thought of as a female hormone, however, it is produced in the male body as well. Applying directly to the scalp helps the progesterone to bind the receptors in the scalp specifically, thus blocking the binding of DHT.

We have seen much success in our hair loss clients using the progesterone. We have had several clients notice significant regrowth (especially in the temple area) after adding the progesterone leave-in to their regimen.

Organic chamomile revitalizes as it conditions the hair and scalp. Organic nettle extract adds natural gloss, and may be a good “tonic” for the hair. This treatment is an ultra-light formula that detangles hair while offering all-day defense without dulling residues. Daily use will leave hair feeling smooth and manageable, adding strength and shine. It is also free of parabens & sulfates with pure and natural oils. This product may also prevent hair loss by limiting excess DHT.

Directions: After shampoo and conditioner, squeeze any excess water out of hair and lightly towel dry. Massage a dime size dab into scalp once daily. Leave in for 15 minutes, then rinse.

Ingredients: Progesterone USP, purified water, organic aloe vera gel, coconut wax, palm oil compound, vitamin B5, comfrey extract, organic jojoba oil, canola oil compound, organic rosemary extract, organic horsetail extract, organic nettle extract, organic lavender extract, biotin, soy protein, vitamin C, potassium sorbate, glycerin, grapefruit essential oil blend.

Melatonin Topical 0.1% 30ml

Melatonin is an antioxidant and may help fight free radical damage. Melatonin may heal damaged hair follicles.

Directions: Apply 0.5 – 1 ml to scalp at bedtime before other products. Massage in well. We feel that the melatonin alone is effective, but we also feel that best results are obtained when it is used in conjunction with our minoxidil compounds.

Ingredients: Melatonin

A-G 3% / Biotin 30mg/ml / Vitamin E 30ml

Biotin is a crucial B vitamin for strong hair follicles. It helps them grow faster, thicker, and healthier. Biotin and nutrient deficiencies are a leading cause of chronic hair loss. Biotin may delay the onset of gray hair. Contains Acetyl Glutathione, which is the body's only naturally manufactured antioxidant, immune booster, and detoxifier. Our Glutathione MATURES the hair, unlike the biotinoyl tripeptide which only causes immature hairs to grow and NOT mature. Glutathione exerts Antioxidant effects that may protect hair follicles from free radical damage. Inactive hair follicles (that occur during the progression of MPB) tend to be deficient in Glutathione.

Directions: Apply 0.5ml (1/2 syringe) to temples and hairline before applying hair loss treatment, or use directly to areas of hair loss, massage in well. For use in women and men. Hair loss may be a result of biotin deficiency.

Ingredients: Acetyl-Glutathione, Biotin, Vitamin E, and Propylene Glycol

Biotin Capsules 8mg • 120 vegetarian capsules

Biotin 5mg-10mg a day has been associated with hair health deficiencies may cause hair loss. B complex vitamins 1000mg a day are very helpful and play a crucial role in the health and growth of hair.

Directions: Take one a day with food

Ingredients: Biotin 8mg, Microcrystalline cellulose, hydroxypropyl methylcellulose (capsule)

Hair Regrowth Solutions

Vital-Vitamin • 120 tablets

This well balanced multiple vitamin, mineral, and trace element supplement is appropriate for anyone wanting a reliable, daily insurance formula to support healthy metabolism, hair, skin and nails. This product is uniquely formulated to provide amounts and sources of essential nutrients that are efficiently utilized and well-tolerated by the body.

Directions: Use 1 tablet twice daily with food.

Hormone Manager for Men and Women • 60 capsules

This formulation promotes a healthy testosterone to dihydrotestosterone (DHT) balance and favorable aromatase activity to limit the conversion of testosterone to estradiol. Balancing DHT in women and men may help in male and female pattern hair loss.

Directions: Take two capsules per day, or as directed by your health care practitioner.

Ingredients: Vitamin D, Vitamin B-6, Zinc, Saw Palmetto, Nettle

Stimulating Shampoo for Hair Loss Therapy 8oz

This shampoo contains peppermint, L-Arginine (an amino acid), eucalyptus and rosemary. Their revitalizing and nourishing properties **increase circulation, adding strength and body**. The Wintergreen Oil and Eucalyptus Oil blend **stimulates and rejuvenates hair follicles**. This shampoo is an invigorating formula used to revitalize dull and lifeless hair while increasing elasticity to prevent breakage. It is also free of parabens & sulfates with no harmful chemicals.

Directions: Wet hair, then massage shampoo into scalp and hair concentrating on the ends of the hair, work into a rich lather, then rinse. Best to follow with Stimulating Conditioner.

Ingredients: Purified water, certified organic aloe vera gel, coconut wax, corn sugars, MSM, vegetable protein, vitamin B complex, vitamin C, vitamin E, saw palmetto extract, vegetable glycerin, certified organic chamomile extract, guar gum, certified organic lavender hydrosol, certified organic jojoba oil, wintergreen oil, l-arginine, eucalyptus oil, kelp extract, calendula extract, comfret extract, sage extract, soap bark extract, soap wart extract, peppermint tea tree essential oil blend.

Stimulating Conditioner for Hair Loss Therapy 8oz

This conditioner formula contains Wintergreen Oil, L-Arginine (an amino acid), and Rosemary. Their revitalizing and nourishing properties increase circulation, adding strength and body. Increased circulation helps promote fuller, stronger and more vibrant hair. **The Rosemary Extract blend helps stimulate hair follicles, encouraging hair growth**. This conditioner is an invigorating formula of peppermint, rosemary and eucalyptus for **fuller, stronger hair** with radiant shine. It is also free of parabens & sulfates with pure and natural essential oils.

Directions: Massage conditioner through clean, damp hair. Leave on for 1-2 minutes, then rinse. For best results, start with Stimulating Shampoo.

Ingredients: Purified water, certified organic aloe vera juice, coconut wax, corn sugars, coconut fatty acid cream base, MSM, vitamin B5, l-arginine, certified organic jojoba oil, willow bark extract, niacin, wintergreen oil, saw palmetto extract, vegetable glycerin, certified organic chamomile extract, eucalyptus oil, guar gum, peppermint tea tree essential oil blend

Here is a breakdown of the mechanisms:

- **Saw palmetto** - DHT blocker
- **L-arginine** - vasodilator (increases blood flow)
- **Aloe Vera** - nourishing and soothing to scalp/follicles
- **Vitamin B-5** (pantothenic acid) - promotes body's delivery of nutrients to follicles
- **Jojoba oil** - similar to our natural scalp oils, moisturizes scalp without clogging pores
- **Niacin** - increases blood flow to the scalp
- **Willow bark** - anti-inflammatory, modulated oil production, promotes follicle health
- **MSM** - increases penetration of other ingredients
- **Vegetable proteins** - proteins are building blocks to hair production
- **Vitamins C and E** - antioxidants; help protect and repair hair follicles
- **Kelp** - Rich in iodine, potassium, and iron; promote healthier scalp and stronger hair
- **Calendula** - anti-oxidant, may promote collagen production and increases circulation
- **Chamomile** - Soothing, anti-inflammatory, may promote collagen production
- **Tea Tree oil** - helps unclog pores, nourish scalp, anti-dandruff activity
- **Coconut fatty acids** - nourishing, anti-fungal activity, moisturizing
